CRITERIA FOR THE AWARD OF THE EXTERNAL INTERNSHIPS VACANCIES

A. Vacancies offered by the collaborating entities in response to the management carried out by the Faculty (Open Offer).

In the vacancy application, the student must indicate the priority relation of the vacancies that he/she is opting to according to his/her choice.

In case there are more applicants than offered vacancies for the same centre, the vacancies will be awarded according to 1) the highest number of passed ECTS and 2) in the cases with the same number of passed credits, the average score of the academic record will be considered.

B. Vacancies offered by the collaborating entities in response to the management carried out by the student (Internships with candidate).

Those vacancies of external internships offered thanks to the student's initiative will be automatically reserved for the student who was responsible for its management.

In both cases (A and B) it will be an indispensable requirement that the student will not have a contractual relation or family relationship with the entity where he/she will carry out the external internships.

MANUEL ÁNGEL POMBAL DIEGO
COORDINATOR OF THE EXTERNAL INTERNSHIPS
